

Instructions to navigate through website

- Once clicking on the above link, you will be redirected to the website. Under this website you will have to create an account and then login.
- After the account is created, Login using the credentials that you entered during the registration.
- After logging in you will have options to Rent/Return a book on the menu bar.
- The “Rent a book” tab will have all the books featured on the website. Select all the desired books you want to rent and click on “View Cart”, then you will be redirected to the cart page. This cart page will have a “Rent” button clicking on this button will then redirect you to a page where you get the confirmation message with a token number. This token number must be used at the library to get the book in hand.
- The “Return a book” tab will have the mocked data which is just used for this scenario. Once clicking on the “Return” button you will then be redirect you to a page where you get the confirmation message with a token number. This token number must be used at the library to get the book in hand.
- All other buttons on the website are self-declaring to interact with and all have the interactive design.
- You can logout after you are done with the website, when you log back in you can see the history of books you’ve rented.
